BIOPRO Baden-Württemberg GmbH is an organisation that comes under the auspices of the Baden-Württemberg government. BIOPRO supports the healthcare industry (biotechnology, medical technology and pharmaceutical industry) and the establishment of a bioeconomy in Baden-Württemberg.

Our work focuses on:

- helping companies develop their innovative capacity,
- accelerating the transfer of scientific findings into industry,
- supporting start-up projects,
- informing the public on industry performance,
- driving forward Baden-Württemberg as an attractive R&D location.

High-revenue employment driver

Companies in the pharmaceutical industry in Baden-Württemberg in 2017 by employment size class

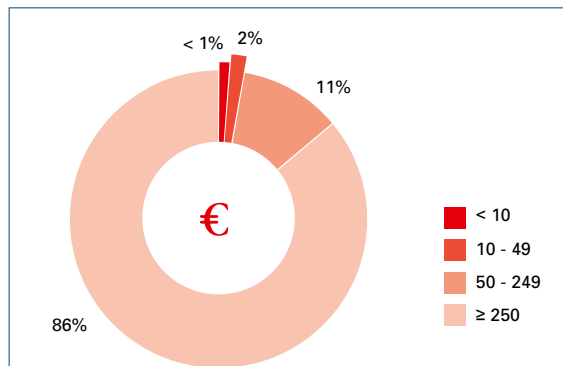

Small and medium-sized enterprises and **large companies** are the two strong pillars of the pharmaceutical industry in Baden-Württemberg.

Traditional, herbal, homeopathic

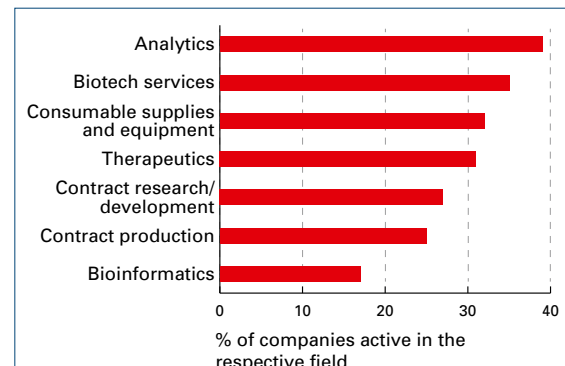

Fields of activity of pharmaceutical companies in Baden-Württemberg (companies may have several fields of activity)

The production of **herbal medicines and homeopathic remedies** is deeply rooted in Baden-Württemberg. Manufacturers like Dr. Willmar Schwabe GmbH & Co. KG, WALA Heilmittel GmbH and Weleda AG have their headquarters here.

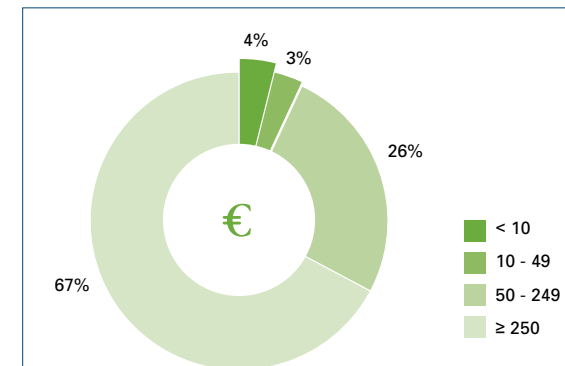

Revenues of biotechnology companies in Baden-Württemberg in 2017 by employment size class

Biopharmaceutical production is a revenue driver: the largest biotechnological production plants are located in the Donau-Iller region (Laupheim, Ulm and Biberach).

Fields of activity of biotechnology companies in Baden-Württemberg (companies may have several fields of activity)

The development of **biotechnological therapies** makes a significant contribution to innovative treatment options in the healthcare sector.

Revenues of the pharmaceutical companies in Baden-Württemberg in 2017 by employment size class

Research and development expenditures in Germany account for **14 percent** of taxable revenues, which is therefore higher than those in any other sector (source: BPI). They reflect the complicated and highly regulated drug development and approval processes.

Taxable revenues and employee figures in the healthcare industry in Baden-Württemberg were calculated by the Baden-Württemberg Statistics Office on the basis of data held in the BIOPRO company database, as long as the relevant data had been submitted to the Statistics Office at the time of the survey. The data were taken from 2017. BIOPRO's company database currently lists 173 biotechnology companies and 87 companies in the pharmaceutical industry, all of which carry out research, develop and/or produce in Baden-Württemberg (as of 7/2019). Figures were extracted for 143 biotechnology companies and 84 pharmaceutical companies. Suppliers and pure distribution companies were not included in these figures. Wherever the survey found companies active in more than one sector, the key figures (revenues and employee numbers) are listed on a pro data basis.
