Förderung durch:	PRECISEU, co-funded by the EU
Reichweite:	Europäische Union

***Der nachfolgende Text spiegelt nicht den gesamten Inhalt der Bekanntmachung wider, sondern enthält einzelne Auszüge der Richtlinie.***

*Die folgenden Informationen sind nur auf Englisch verfügbar:*

The **PRECISEU Best Practice Recognition** is more than a contest—it is a movement to accelerate the future of personalised medicine across Europe. Born from the PeRsonalised medicine Empowerment Connecting Innovation ecoSystems across EUrope (PRECISEU) programme, this visionary initiative shines a spotlight on pioneers who are translating cutting-edge science into realworld care—especially through the innovative and responsible use of health data. With ambitious purpose it celebrates exemplary practices that not only push the boundaries of what’s possible but also make these breakthroughs accessible, equitable, and impactful for all. This recognition is a catalyst for transformation—bridging science and society, innovation and implementation, vision and care. It calls upon researchers, entrepreneurs, institutions, and citizens alike to lead with purpose, collaborate boldly, and ensure that life-changing therapies reach every patient, everywhere—fast and fair. PRECISEU Best Practice Recognition honours not just innovation, but the courage to act, the will to include, and the power to change lives.

PRECISEU is excited to announce the **Best Practice Recognition Edition 2**, an event to accelerate outstanding innovation in healthcare data utilisation. The Recognition Ceremony will take place in June 2026 at the Spinoff Europa Conference 2026, Sofia.

The outcomes are expected to enable the implementation of best practice models in Europe by highlighting the promoted examples. By creating a European network of excellence, the introduction of personalized medicine will be accelerated and improve healthcare outcomes

The recognitions feature four categories:

- **IMPACT:** for academic-business partnerships driving significant healthcare improvements
- **INNOVATION:** for SMEs and startups revolutionising patient care with advanced therapy medicinal products (ATMPs)
- **EXCELLENCE:** for organisations leading in health data accessibility, safety, and inclusivity.
- **CULTURE:** for organizations that have developed best patient involvement and public engagement

Eligibility extends to public and private research-performing organisations from EU Member States or Horizon Europe-associated countries. The winners will receive Europe-wide recognition, mentoring opportunities, and participation in key conferences. An applicant can only apply to one category of the four PRECISEU Best Practice Recognition Categories with the same project.

If you’re pushing boundaries in personalised and data-driven ATMP based solutions in healthcare, this is your moment!

The call is now open for the second Edition

We offer three more sessions where we explain how to apply - register on the PRECISEU website!

**Info session 1:** 12 December 2025, 1:30 – 2:30 pm

**Info session 2:** 8 January 2026 1:30 – 2:30 pm

**Info session 3:** 6. February 2026, 1:30 – 2:30 pm

## Benefits

Each winner will be featured prominently across social media platforms associated with the organization, reaching a diverse and engaged audience. This includes targeted promotion to raise awareness of their achievements in Europe and beyond, showcasing their success on a global stage. This widespread European and international promotion is an opportunity to connect with key stakeholders, professionals, and decision-makers in their field.

The winners are invited to join with two individuals an event hosted by a PRECISEU network member. This includes the opportunity to be celebrated on stage in a Recognition Ceremony and being showcased among an esteemed audience of peers and industry leaders. As part of their promotion, the winner will have the unique opportunity to contribute their insights and knowledge by participating in high-level training sessions for decision-makers. This platform allows the winner to interact with policy, being a role model for industry practices, and solidify their reputation as a thought leader in their domain.

## Timetable and deadlines

- Call opening October 2025
- Deadline for Submission 1 March 2026
- Evaluation March/April 2026
- Notification to finalists and winners April 2026
- Public voting May 2026
- Announcement of finalists May 2026
- Recognition Ceremony June 2026
