Whether individual development steps or complete leaps in innovation: If something that already exists in medical technology is to be improved or something new to be established, there are many factors to consider. This includes technologies, materials, methods and processes, but also regulations. The Innovation Forum brings these topics together – and the people who deal with them. Find out about the trends of today and tomorrow. Meet experts from research institutions and companies. Gain insights and the right partners to move forward individually and in cooperation. We shape the forum – you shape the progress.

What is it about?

- Presentation of new ideas, projects and research results with a high degree of application
- Inspiration for your own R&D projects
- Bringing together business and science
- exciting presentations from recognized experts
- practical knowledge from the industry
- networking with the specialists of tomorrow and start-ups
- Access to knowledge of innovative institutes and research institution
- About 400 decision-makers
- Networking and organized one-to-one meetings
- Forum accompanying exhibition renowned manufacturer and institutes
- Professional exchange around medical technology

You can look forward to that!

- **business breakfast:** The early bird ... Meet with your discussion partners as early as 9:00 in the morning.
- **Guided Tour:** Use the Guided Tour as an exhibitor to present your competence and address potential business partners. Use the Guided Tour as a visitor to get an overview of the competencies of the exhibitors and thus to get to the topics that really interest you.
- **Varied Program:** 40 expert lectures in 9 sessions on current topics of the medical technology industry, 2 keynotes, 1 podium talk, best-practice slots
- **Speakers' Corner:** Speakers are available after their presentation for further questions and discussions.
- **B2B matchmaking tool:** book targeted discussions with desired partners in advance.
- **TechnologyMountains bonus:** ALL participants from TechnologyMountains member companies receive a 50% discount.
- **WARM-UP – PRELIMINARY PROGRAM ON OKTOBER, 19th 2022 from 5:00 pm**
Get in the mood for the forum with the evening before and discuss with experts from our partner country about current topics of the branch. In the format of a World Café, theses are confirmed and refuted. If you are interested, please register in advance!

Program

Focus topics:

- Artificial Intelligence / Robotics
- Additive manufacturing
- Materials and materials / surface technologies and coatings
- Digitization / Smart Systems
- new manufacturing processes
- innovative production processes
- Virtual / augmented reality
- Sustainability (production / packaging / processes)
- sensors and measurement technology
- and much more

MIK will be on site with a stand. We are looking forward to your visit!
