

3rd Biointelligence Congress in Stuttgart

Date:

06-Oct-2026

09.00 am - 06.00 pm

Venue:

Stuttgart

Costs:

fee-based

Address:

Messe Stuttgart,
Messeplazza 1,
70629 Stuttgart,
Germany

Directions:

 [How to find us](#)

Type:

Congress/Symposia

Organiser:

Fraunhofer Institute for Manufacturing Engineering and Automation IPA

Contact:

M.Sc. Yannick Baumgarten

Phone: +49 (0) 711 970 1957

Email: yannick.baumgarten@ipa.fraunhofer.de

Dr. Nadine Silber

Phone: +49 (0) 711 970 1693

Email: nadine.silber@ipa.fraunhofer.de

Philipp Autenrieth

Email: event@ipa.fraunhofer.de

Language:

English

The Biointelligence Congress convenes industry pioneers, researchers, and innovators to accelerate biointelligent

manufacturing. This event focuses on the latest news and innovations at the intersection of biology, technology and computer science for the development of bio-based production systems. It provides a unique platform for companies seeking to integrate biointelligent solutions into their processes, tackle technical challenges in life sciences, or explore new applications of biology in manufacturing.

Why Attend?

- Explore the future of biointelligence and discover technologies with the potential to transform industries.
- Gain strategic insights into emerging trends in bioprocessing, sensor technologies, automation and AI.
- Learn from visionary leaders who bridge research, industry and entrepreneurship.
- Discover real-world applications and new opportunities for collaboration, innovation and investment.

Who Should Attend?

- C-level executives and senior decision-makers looking to stay ahead of technological disruption.
- Innovation leaders, researchers and entrepreneurs translating scientific breakthroughs into industrial solutions.
- Start-ups and investors seeking new partnerships and investment opportunities.
- Policymakers and funding organisations shaping the future of the bioeconomy and innovation landscape.

Why It Matters to Your Industry

- Food, Biomanufacturing, Biopharma and Biomedical
Discover how novel bioprocesses can become more efficient, sustainable and scalable through advanced sensor technologies, automation and AI-driven process optimization.
- IT & Artificial Intelligence
Explore high-growth application areas in the life sciences, connect with industry partners and researchers, and identify new opportunities to develop impactful AI solutions.
- Mechanical Engineering, Automotive and Medtech
Understand how biology is transforming manufacturing and industrial value chains, what this means for your business, and where your technologies and expertise can contribute to the next generation of production.

Organiser: Messe Stuttgart

Partners: Fraunhofer IPA, Fraunhofer IGB, University of Stuttgart, University of Hohenheim

The Biointelligence Engine, Competence Center Biointelligence, Wittenstein Stiftung, BioPro
