The BIO International Convention is the largest and most comprehensive event for biotechnology, representing the full ecosystem of biotech with 20,000 industry leaders from across the globe.

In a time of remarkable discovery and progress, the biotechnology industry stands at the forefront of a revolution changing

how we live, heal, and care. From pioneering treatments offering hope to millions, to sustainable agricultural innovations to feed a growing population, or environmental breakthroughs securing our future, biotech drives positive change faster than ever. This progress is not just a change but a promise for a brighter future. The world is ready.

Whether you work at a public pharmaceutical company, biotech startup, academia, non-profit organization, or government agency; or you work as a researcher, business development professional or investor, BIO is where you'll make valuable connections and build relationships. Our proprietary BIO Partnering™ match-making platform—exclusive to the Premier Access registration package—allows you to find potential partners, schedule and accept meetings.
