One of the world's leading gatherings on the future of science & technology

Health, synthetic biology, material sciences, energy, artificial intelligence, robotics, mobility, space flight, secrets of the human mind and new ways of working together.

Over the millennia science & technology have steadily advanced, but key unsolved challenges remain, and much more is possible. The Curious – Future Insight™ Conference brings together some of the world's brightest scientists and most accomplished innovators to present their work and explore the future of science and technology, solving the challenges of today and enabling the dreams of a better tomorrow.
