‘Diagnostics-4-Future Conference’ is the international meeting-place for users and providers from industry and science.

Based on questions in medical care, clinics and laboratories, innovative solutions for new diagnostics are discussed including research and development. The focus is also on solutions for rural areas (point-of-care). Organizer is the international health network BioLAGO.

The conference topics are Diagnostics of Infectious Diseases, Cancer Diagnostics, Therapeutical Drug Monitoring, New Approaches for Common Diseases and Digitalization and Artificial Intelligence in Diagnostics.

Reasons for Attending:

- Summary of medical needs and diagnostic trends
- Experts as on hand conversation partners  
150-200 participants from Europe and beyond
- International exchange and matchmaking
- Partnering & Exhibition opportunities to present your solutions
- Pitch competition: chance to present your ideas to the audience
