DigiHealthDay (DHD) is a Global Forum for Education, Research, Innovation, and Networking in Digital Health, with the theme "Global Digital Health – today, tomorrow, and beyond."

It is organized by the European Campus Rottal-Inn (ECRI), the international campus of the Deggendorf Institute of Technology (DIT), together with its partners, sponsors, and donors.

DHD includes a series of events, both onsite and online, throughout the year, all centered around the theme "How are digital technologies transforming health and care around the world?" The series culminates in the main symposium, DigiHealthDayS, and the networking event, DigiHealthNight, in November.

This announcement is a third-party event and is not organized by BIOPRO Baden-Württemberg GmbH itself. BIOPRO provides this announcement for distribution and information purposes and, despite careful examination of the content reproduced, assumes no liability for the correctness or subsequent changes by the organizers. If you have any questions, please contact the organizer directly.
