 [preliminary agenda EKFZ | InnoDays 2022](#)

We bring together the innovators of the medical technology sector. In the interactive presentation event, which consists of keynote lectures by renowned speakers as well as presentations of the interdisciplinary innovation projects at the EKFZ, the exchange of players from science and industry will be promoted.

**EKFZ | InnoNight:** On the evening of September 23, we offer participants the opportunity to exchange ideas and network over a conference dinner on a historic steamer on the Elbe River. The places for the EKFZ | InnoNight are limited, therefore the principle "first come, first serve" applies.

## Concept

Over the past years, a wide network with various contacts in the Dresden high-tech scene and beyond has developed at the EKFZ for Digital Health. We would like to share this network! With the EKFZ InnoDays, we want to use our status as a multiplier to bring together the innovators of the medical technology sector.

The event is planned as an interactive face-to-face with an **exciting agenda**. In addition to keynote lectures with high-profiled

speakers from science and industry, there will also be plenty of time for demonstrating and exchanging innovative ideas. In **demo sessions**, the teams of the Interdisciplinary Innovation Projects (IIP) at the EKFZ will present their research projects and engage in conversation with stakeholders from science and industry.

You can take advantage of this innovative environment, too! In **Network-Pitches** we give scientists with innovative ideas the exclusive chance to pitch their plans at the InnoDays in order to generate further matches from medicine and high-tech beyond the EKFZ.

## Speakers

### **Prof. Dr. Christian Johner**

Johner Institut

### **Prof. Dr. Christoph Keplinger**

Director of Max-Planck-Institute for Intelligent Systems

### **Constantinos Patsakis**

Associate Professor | University of Piraeus

### **PD Dr. med. Dipl.-Phys. Daniel Truhn**

University Hospital RWTH Aachen

### **Prof. Dr. med. Tjalf Ziemssen**

MS Centre Dresden | University Hospital Dresden
