Faster and Safer Labs: Online Labautomation Hackathon

Date:

14-Oct-2021

10.00 am - 06.00 pm

Venue:

online

Costs:

free of charge

Type:

Workshop

Target group:

lab users, universities, interested students, companies, start-ups and organisations from life science and clinics as well as programmers

Organiser:

BioLAGO e.V. in cooperation with SiLA rapid integration

Contact:

Jamin Bouras

Projektmanager Laborautomation

Phone: +49 (0) 7531 – 921 5253

E-mail: [jamin.bouras\(at\)biolago.org](mailto:jamin.bouras(at)biolago.org)

Language:

English

Online-Hackathon | Register now for free for the second online Labautomation Hackathon and be part of an innovative team!

BioLAGO in cooperation with SiLA welcomes you to the second hackathon on laboratory automation, that actively addresses the needs of lab users. Increase the capabilities of technology that contributes to progress for lab automation!

Take the chance and join the second virtual event in which innovative ideas and approaches to solutions for automation in the laboratory will be developed.

The target audience for the upcoming hackathons are both experienced and inexperienced coders as well as lab users who wishes to exchange with top European experts in the field of automation and IT development.

The organizers cordially invite lab users, universities, interested students, companies, start-ups and organisations from life science and clinics as well as programmers to join our event. This will be the second of four planned events. It is not too late to join a team that contribute to smarter, safer and faster labs.

Come together – learn, network and be part of a progressive innovative group!

Find out how SiLA and AnIML standards can be implemented, connect with people and exchange your ideas and experiences. If you are interested in robotics solutions then this is the right event for you.

Don't miss the opportunity to come together and to create synergies.
