The FORUM Science & Health is the interdisciplinary meeting place in Bavaria for everyone interested in life science and biotechnology. It covers a range of relevant topics, connecting players from the fields of biotechnology, medicine, nutrition, medical technology and digitalization to set new impulses for a future-oriented integrated medicine. The forum facilitates an informative and fruitful exchange about current developments in the sector, novel technologies, interesting new findings and all the hot topics in the field of health research.

In 2022, the FORUM Science & Health is presented in two formats:

On-site conference Veranstaltungsforum Fuerstenfeld near Munich, July 5-6, 2022

The theme of this year's conference is the **Medicine of the Future**.

Within the two-day program we will highlight latest developments in the fields of innovative technologies and therapeutics, which will have great impact on the way we approach, prevent, diagnose and treat diseases in the future.

At the Forum, you will have the opportunity to:

- Meet international experts in an inspiring atmosphere
- Gain insights into outstanding R&D activities
- Take part in interactive sessions and discuss current topics
- Pitch your research ideas and share your expertise
- Enjoy networking and an entertaining evening event

Save the date and stay tuned for more information.
