The German Conference on Synthetic Biology 2024 (GCSB 2024) is set to take place in Regensburg, Germany from 18-20 September, 2024. This programme of the exciting event is jointly organized by the German Association for Synthetic Biology (GASB) and the Joint Subject Division on Synthetic Biology (Gemeinsame Fachgruppe Synthetische Biologie), a collaboration between DBG, DECHEMA, GBM, and GDCh.

The programme will feature current research from the diverse fields of synthetic biology:

- biomedical applications
- cell-free and bottom-up systems (protocells)

- metabolic engineering
- modelling (automation, data science, systems biology)
- smart materials
- solutions for sustainability
- synthetic genomics and gene circuits

If you feel like your research fits in these fields and you want to present your research with a talk or a poster on this years german synbio conference submit your abstract and take your chance **until the 31 March!**
