

# ON Helix 2022

**Date:**

04-Jul-2022 - 07-Jul-2022

**Venue:**

Cambridge (United Kingdom) & Online

**Costs:**

fee-based

**Address:**

The Cambridge Building  
Abraham Research Campus  
Cambridge CB22 3AT

**Directions:**

 [How to find us](#)

**Type:**

Congress/Symposia

**Organiser:**

One Nucleus

**Language:**

English

**Links:**

This one-day conference will address the main bio innovation trends, from the developments in life science and technology research to their translation into new diagnostics, prevention tools or treatments.

Don't miss this opportunity to reconnect with the One Nucleus network and keep up to date with the latest trends in Bio Innovation for Health.

**ON Helix 2022 offers:**

- High content mix of plenary talks and panels from key opinion leaders
- Networking with 250+ delegates on the day
- Option to arrange 1 to 1 virtual meetings with in-person and digital only delegates
- The ON Helix Fringe events from 4 July including digital Innovation Workshops for further technical and business insights and additional in-person networking opportunities
- The 'Innovation Engine Room' to showcase the most innovative early-stage life science companies as well as the innovation supporters from the network
- In-person delegate rates from only £295 +VAT

# Innovation Workshops

Recognising that whilst parallel stream workshops at a conference offer attendees and session sponsors the opportunity to meet and discuss very focussed topics of interest, that traditional format also has limitations in terms of competing for attention, accessibility and legacy.

In a business world increasingly comfortable online, conscious of operating costs, work-life balance and sustainability the ON Helix **Innovation Workshops** provide benefits for all as follows:

**Sponsors** – the opportunity to have a non-competing time slot with maximal accessibility to engage with all delegates, including the digital only attendees. Recording of the session providing post-event dissemination opportunities.

**Delegates** - the opportunity to attend all the workshops of interest around the in-person day. No requirement to choose between parallel sessions or sacrifice the valuable in-person networking time.

Organised by expert partners and international collaborators, these one-hour live and interactive online sessions enable ON Helix delegates to gain insight and discuss the topic whilst making more targeted connections.

To reserve one of the limited Innovation Workshop slots available please contact [onhelix\(at\)onenucleus.com](mailto:onhelix(at)onenucleus.com).

## Programme

### Thursday 7 July

08:30 | Registration

08:55 | Welcome

09:00 | Keynote Presentation

09:20 | Enabling Bio Innovation

A Keynote presentation and panel to discuss the main technology, human and societal drivers of successful bio innovation.

10:20 | Coffee Break

10:50 | Bio Innovation in Therapeutics – AI Discovered Drugs in Action

With the first 'AI discovered' drugs starting to be approved, our expert panel will discuss how much this game changing technology will impact development life cycles and who may be the biggest winners from its deployment.

11:40 | Bio Innovation in Diagnostics – From Population to Precision

A panel discussion to highlight how the technology developments in omics, biomarkers identification and data collection are shifting the value proposition for diagnostics.

12:30 | Lunch

13:30 | Bio Innovation in Prevention – the Good, the Bad and the Bugly

After two years focusing mostly on one virus, many innovations in the space of ARM, microbiome or general surveillance were overlooked. This panel will discuss the opportunities now arising in a more holistic approach to human – 'bug' interaction.

14:20 | Bio Innovation in Development – Manufacturing Cell and Gene Therapeutics

The panel will discuss key technology advances in manufacture of cell and gene therapies, a crucial topic for those developing therapeutics who hope they will become market leaders.

15:10 | Coffee Break

15:40 | Back to the Future – Reinventing Bio Innovation Ecosystems

A presentation and panel reflecting on the key ingredients that create the most successful Bio Innovation Ecosystems and how they must evolve to keep pace with the fast-moving world we live in.

16:55 | Closing Remarks

17:00 | Drinks Reception

18:30 | End
