The MedTech Forum is the largest health and medical technology industry conference in Europe and a key event since 2007. Join industry leaders, leading innovators and investors to discuss the future opportunities in the medical technology sector.

As the largest event for the medtech industry in Europe, this new edition will once again gather leading voices from across the medical technology community — industry experts, policymakers, healthcare professionals, patient representatives and many more — to exchange ideas and explore the key trends shaping the future of our sector. From innovation and digital health to regulatory developments, access to care, and sustainability, the programme will provide a rich platform for dialogue and insight.

This announcement is for an event organized by a third party and is not being held by BIOPRO Baden-Württemberg GmbH itself. BIOPRO is providing this announcement for dissemination and information purposes and, despite careful checking of the content reproduced, accepts no liability for its accuracy or for any subsequent changes made by the organizers.
