REHAB Karlsruhe has been one of the world's biggest and most significant trade fairs for rehabilitation, therapy, care and inclusion since 1980. Specialists from all over Germany and the neighbouring countries come to Karlsruhe every two years to bring themselves up to date with the latest trends in rehabilitation technology, innovations in the assistive aids industry and

new therapeutic options as well as to take advantage of further training opportunities.

REHAB has been a firm fixture in the industry's timetable for more than 40 years and has established itself as THE most important platform for high-quality mobility aids and children's aids from Germany and other European countries every second year.

Be part of it and present your products and services at one of the world's key trade fairs for rehabilitation, therapy, care, and inclusion!
