67000 Strasbourg,
France

Directions:

📍 How to find us

Type:

Conference and networking event

Organiser:

Quest for Health

Language:

English

Quest for health and its partners from the Life Science Accelerator Baden-Württemberg, BadenCampus and the Innovation Office of the University of Basel, are pleased to invite you to the **7th edition of the Trinational HealthTech Days**.

Bringing together startups, investors, corporates and key ecosystem players from France, Germany and Switzerland, and this year welcoming special guests from Belgium and Canada, this event is built around two complementary days:

November 3

Investor Day – Online, upon selection

One-to-one meetings between selected startups and investors/corporates from across the trinational ecosystem.

November 5

Conference & Networking Day – IRCAD France, Strasbourg

Keynotes by Prof. Jacques Marescaux (IRCAD) and Prof. Thomas Baumert (Alentis Therapeutics / Inserm), roundtables on alternative funding strategies and cross-border collaboration opportunities, thematic workshops in medtech, biotech and digital health, and networking throughout the day. The full program will be shared shortly.

Last year, the event welcomed over 300 participants and facilitated more than 125 one-to-one meetings with over 35 investors and corporates.

New this year: Registered startup participants will receive access to a private attendee directory, including company profiles, making it easy to identify relevant contacts and arrange conversations ahead of the event.
