Die folgenden Informationen sind nur auf Englisch verfügbar:

'Diagnostics-4-Future Conference' is the international meeting-place for users and providers from industry and science.

Based on questions in medical care, clinics and laboratories, innovative solutions for new diagnostics are discussed including research and development. The focus is also on solutions for rural areas (point-of-care). Organizer is the international health network BioLAGO.

Expertise

Initiator is the international health network BioLAGO where companies, research institutions and clinics work together on new diagnostics. The conference emerged from the DiagNET project.

Medical need

The discussed matters are highly user-oriented (physicians, clinicians, laboratories, medical centers). Medical needs and compatibility with user processes (clinical routine) are key factors for the conference.

Patient focus

Especially, patient-oriented solutions regarding health-care in regional hospitals are addressed (e.g. point-of-care-testing).

Openness

The conference connects partners worldwide with the 4-country region around Lake Constance (Germany, Switzerland, Austria & Liechtenstein). Past conferences brought together experts from over 15 countries (Europe, USA, Asia)

Target group

Companies, laboratories, clinics and physicians as well as research institutions - in diagnostics, medical technology, life science and data/eHealth.

Topics and Programme Highlights 2025

- AI-based diagnostics: hope or hype?**

Michael Sahnau, Microsoft Deutschland

Olaf Schwarz, amedes Holding

Prof. Dr. Markus Juchems, Clinics of Constance

- Antibiotic resistance**

Robbin Zielke, Oleudent GmbH

Dr. Michelle Bressan, Institute for Medical Microbiology, University of Zurich

Özden Baltekin, Sysmex Astrego AB

- Overdiagnosis – how to minimise?**

Prof. John Brandt Brodersen, University of Copenhagen / Arctic University of Norway

- Sustainable and cost-effective diagnostics – compatible at all?**

Dennis Göthlich, University Hospital Zurich (CH)

Dr. Loïc Lannelongue, University of Cambridge

... and much more!
