Adresse:	Fraunhofer-Institut für Produktionstechnik und Automatisierung IPA Nobelstr. 12 70569 Stuttgart	Lir

Anfahrt:  [Anfahrtsskizze](#)

Folgende Informationen sind lediglich auf Englisch verfügbar:

WearRAcon Europe will offer new insights into the promising world of exoskeleton systems from various perspectives. Attendees will hear from renowned exoskeleton pioneers like Thomas Sugar, ASU and Robert, Riemer ETH Zurich combined with relevant user opinions from Daimler and public relevant experts from the German Federal Institute for Occupational Health and Safety (Baua).

They expect two days of discussions on systems; end user experiences (both medical and industrial); latest research; work insurance perspectives; along with physical hands-on testing in the Future Work Lab.

There will be exhibition space for systems and components, lab tours, a poster session, and a conference publication. Come and experience and try on exoskeletons.
